

**MAKATON  
SIGNING  
WEEKLY STAFF  
TRAINING  
SESSIONS**

***Lets learn to  
sign together***

The internal training is held every week for staff at  
Crossbrook in Cheshunt

## ***Our Speech and Language Therapy Team***

***Within Sequence Care Group we are proud to provide the highest quality services. However, this standard is not achieved by accident, but instead by dedicated planning, training and application of skills that are learnt. As an example of this our Speech and Language Therapy Team run sessions for staff to support their communication with service users. Makaton is a tool to support communication and each week sessions are provided for staff at Crossbrook in Cheshunt. These sessions are designed to be fun and informative and lead to staff receiving an in-house training certificate after attending at least three sessions and/or able to sign 30 signs independently assessed by SALT.***

***The aim is for support staff to all support each other to learn and practice signing together and make it fun too whilst increasing CPD for support staff with in-house training.***

***For more information about our services please visit our website:  
[www.sequencecaregroup.co.uk](http://www.sequencecaregroup.co.uk)***

***Or alternatively you can view some of the outcomes achieved on our Twitter pages: [Sequence Care Group \(@SequenceCare\) / Twitter](#)***
